

Mindfulness Technique

Mindfulness is a type of meditation in which you focus on being intensely aware of what you're sensing and feeling in the moment, without interpretation or judgment. Practicing mindfulness involves breathing methods, guided imagery, and other practices to relax the body and mind and help reduce stress.

There are many simple ways to practice mindfulness:

- **Pay attention.** It's hard to slow down and notice things in a busy world. Try to take the time to experience your environment with all of your senses — touch, sound, sight, smell and taste. For example, when you eat a favorite food, take the time to smell, taste and truly enjoy it.
- **Live in the moment.** Try to intentionally bring an open, accepting and discerning attention to everything you do. Find joy in simple pleasures.
- **Accept yourself.** Treat yourself the way you would treat a good friend.
- **Focus on your breathing.** When you have negative thoughts, try to sit down, take a deep breath and close your eyes. Focus on your breath as it moves in and out of your body. Sitting and breathing for even just a minute can help.
